

CLEAN AIR SYSTEM

KILLS 99.99% OF SARS-COV-2 (CAUSES COVID-19)

The world leader in airflow innovation, Big Ass Fans reaches new heights with the industry's most effective air disinfection solution—Clean Air System. With expert fan designs and proprietary technology, Clean Air System has been verified through independent laboratory testing to kill 99.99% of SARS-CoV-2 (causes COVID-19) and other airborne pathogens while safely neutralizing allergens, odors, and fumes.

KEY BENEFITS

- Protect your people by killing airborne viruses and bacteria
- Safely neutralize allergens, odors, and fumes
- Improve air quality and work conditions over wide coverage areas
- Enjoy a range of convenient controls and available automation
- Rely on Big Ass Fans to design and maintain a custom solution
- Get up and running quickly with factory-certified install and commissioning

POWERFUL AIRFLOW

Our world-class products offer unparalleled airflow—the key to disinfecting the air your people breathe and delivering it right where they need it.

PROVEN TECHNOLOGY

Our industry-leading products' seamless integration of ion and UV-C technology—both scientifically proven to kill airborne pathogens—makes these disinfection methods more practical and effective than ever before.

UNMATCHED EXPERTISE

Choose the winning team. With our custom solutions, factory-certified installation, and expert in-field servicing, you'll keep your people protected for the long haul.
