HOW MANY WIPES DO I NEED?

1

ESTIMATE NUMBER OF GYM VISITS DAILY

2

DETERMINE NUMBER OF WIPES PER VISIT

3

CALCULATE WEEKLY WIPE USAGE

4

DETERMINE HOW MANY WIPE ROLLS WILL BE USED MONTHLY

EXAMPLE:

A small gym has about **100 visits per day**.

Assume half of your daily visitors will use a wipe. That's **50 wipes per day**.

50 wipes/day x 7 days = **350 wipes/ week**

Our Antibacterial Disinfecting Wipes have 800 wipes/roll, so a **case of 4 rolls will last at least 2 months**.

TIP 1:

RETAIN MEMBERS THROUGH CLEANLINESS

Consider this: the average gym membership costs \$500 per year. By investing in cleaning wipes for your equipment, you only need to retain three members to cover the average annual cost of wipes.

TIP 2:

AIM LOW

When calculating your wipe needs, it's always wise to aim for the lower end of the estimated range so you're not overstocking and wasting valuable resources.

Q: WHAT'S THE DIFFERENCE BETWEEN...

CLEANING

The process of **removing dirt, dust, and other visible debris from surfaces**. This method does not kill germs or bacteria but instead helps to reduce their numbers. Cleaning usually involves using soap, water, and a scrubbing brush or cloth to remove dirt and grime from surfaces.

VS.

SANITIZING

The process of **reducing the number of germs and bacteria on surfaces to a safe level**. Sanitizing does not necessarily kill all germs and bacteria but reduces their numbers to a level that is safe for humans. Sanitizing is usually done using a sanitizing product, which is designed to reduce the number of germs and bacteria on surfaces.

VS.

DISINFECTING

The process of **killing germs and bacteria on surfaces using chemicals**. This method involves using a disinfectant product, which is designed to kill specific types of germs and bacteria. Disinfecting is an important process for reducing the spread of infectious diseases.

THE ROI OF CLEAN

HOW ZOGICS WIPEES CAN BOOST YOUR BUSINESS

In today's competitive business landscape, every detail matters. A clean and well-maintained environment isn't just about aesthetics; it's a strategic investment with a measurable return on investment (ROI).

Enhancing Member/Guest Satisfaction: A Clean Perception is a Positive Perception

Studies consistently show a direct correlation between cleanliness and customer satisfaction. A 2021 survey by Harvard Business Review found that 72% of customers surveyed said a clean environment impacts their purchasing decisions. Imagine a restaurant with sticky tables or a gym with dusty equipment – these details create a negative first impression and deter customers from returning. A clean environment, on the other hand, fosters a sense of comfort and well-being, leading to higher satisfaction scores and positive online reviews.

72%

**OF CUSTOMERS SURVEYED SAID
A CLEAN ENVIRONMENT IMPACTS
THEIR PURCHASING DECISIONS.**

THE ROI OF CLEAN (CONT.)

HOW ZOGICS WIPEES CAN BOOST YOUR BUSINESS

94%

**OF LOYAL CUSTOMERS
REPORT BEING
HIGHLY SATISFIED
WITH A BUSINESS'S
CLEANLINESS.**

Gaining Positive Results and Return Business: Building Loyalty Through Cleanliness

First impressions matter, but maintaining a clean environment is just as crucial. A clean and inviting space encourages repeat business. A study by Zogby International found that 94% of loyal customers report being highly satisfied with a business's cleanliness. **This satisfaction translates to increased customer loyalty and referrals, ultimately boosting your bottom line.**

The power of social media cannot be ignored. Today's customers are vocal online, sharing their experiences with friends and followers. A sparkling clean environment becomes a talking point, generating positive social media buzz and attracting new customers.

THE ROI OF CLEAN (CONT.)

HOW ZOGICS WIPES CAN BOOST YOUR BUSINESS

Mitigating Costs Associated with Staff Sickness and Absenteeism: A Healthy Workplace is a Productive Workplace

Maintaining a clean environment reduces the spread of germs and viruses, leading to a healthier workforce. The National Floor Safety Institute reports that **a clean workplace can reduce employee absenteeism by up to 40%**. Fewer sick days translate to increased productivity and cost savings for your business. Happy and healthy employees are also more engaged and provide better customer service.

Reducing Risks to Visitors and Liability: Cleanliness for Safety and Peace of Mind

Cleanliness isn't just about aesthetics; it's also about safety. Spills, debris, and clutter can all lead to accidents such as slips, trips, and falls. A clean environment minimizes these risks, protecting your visitors and reducing your business's liability. Furthermore, maintaining a clean space ensures compliance with health and safety regulations, preventing potential fines and legal issues.

THE ROI OF CLEAN (CONT.)

HOW ZOGICS WIPES CAN BOOST YOUR BUSINESS

Cost-Benefit Analysis: Investing in Cleanliness Pays Off

The financial benefits of cleanliness far outweigh the initial investment. Consider the cost of a Zogics wipes dispenser and refill packs against the potential savings in reduced absenteeism, improved customer satisfaction, and minimized liability. The ROI of cleanliness is undeniable.

**THANK YOU FOR
BEING A GREAT
SUPPLIER TO
ARTEMIS YOGA!**

"The antibacterial
wipes have been a
game-changer, our
yoga studio students
love them."

CASE STUDY: A Studio's Journey to Cleanliness

Artemis Yoga in Auburndale, MA made the switch to Zogics cleaning wipes, and in doing so improved their cleaning routines and member satisfaction. Liz, the studio owner noted, "We love the product mix from Zogics. The antibacterial wipes have been a game-changer, our yoga studio students love them, they smell nice and they are so pleasantly displayed in the silver canisters [wipe dispensers] from Zogics. Ordering our paper goods too is such a breeze and the delivery is SO FAST!

Thank you for being a great supplier to Artemis Yoga!"

THE ROI OF CLEAN (CONT.)

HOW ZOGICS WIPES CAN BOOST YOUR BUSINESS

Strategies for Implementing a Cleanliness Program: Getting Started is Easy

Creating a culture of cleanliness is key. Here are some practical tips:

STAFF TRAINING

Train staff on proper cleaning procedures and the importance of maintaining a clean environment.

REGULAR AUDITS

Conduct regular inspections to ensure cleanliness standards are being met.

ZOGICS WIPES

Invest in convenient and effective cleaning solutions like Zogics wipes. They are ideal for quick cleanups on surfaces, equipment, and shared spaces.

Investing in cleanliness isn't just about keeping your space tidy; it's about creating a positive and productive environment for your staff, members, and guests. By **prioritizing cleanliness with the help of Zogics wipes**, you'll be well on your way to achieving long-term success for your business.

ZOGICS WIPES

vs.

SPRAY CLEANERS

Regardless of if you prefer pre-moistened wipes or the classic spray bottle and towel, the important thing to remember is how to properly (and effectively) clean your equipment no matter what you're using.

Here are some things to keep in mind when choosing wipes or spray cleaners for your facility.

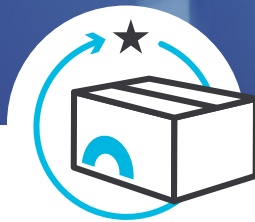

-  No preparation required, just install dispensers
-  Completely disposable, leaving no mess after use
-  Wipes are stored in a fixed dispenser that minimizes messes
-  Safest option for members with no risk of misuse
-  Safe & effective on equipment

-  Disinfectant must be diluted and spray bottles refilled
-  Paper towels can be wasted and rags must be washed regularly
-  Spray bottles & towels can be misused and/or stolen
-  Chemicals are sprayed in the air while others are exercising
-  Excess spraying can damage equipment & control panels on expensive machinery
